Submission Checklist

👉*Check off each of the features you have completed.* **You will only be graded on the features you check off.**

- ☑ ~~Question #1 answered below (*all 3 subquestions with minimum word count*)~~
- ☑ ~~Question #2 answered below (*all 3 subquestions with minimum word count*)~~
- ☑ ~~Wireframe~~

Individual Brainstorm

❓ **Question #1:** Describe your website subject in detail:

> What do you already know about your social impact topic? (*50+ words*)
>
> My social impact topic is climate justice, with how fast the world is advancing we tend to forget about the impact we are having on the planet. Electronic waste from short product life cycles contributes to environmental damage. Other critical factors include industrial emissions, transportation, deforestation, and unequal resource use. The goal of my website is to spread awareness on the damage done and what preventive measures can be taken.

> What do you still need to find out about your social impact topic in order to create a meaningful website? (*20+ words*)
>
> I need to research more ways about how individual people can help contribute to slowing down the damage done to Earth and help provide more real world examples of the consequences we may face if this continues.

Who are the stakeholders involved with/affected by your social impact topic? ie children, people living in cities, politicians, CEOs, female-identifying persons (*20+ words*)

The individuals involved with this social impact topic should be everyone around the world, specifically people who live in metropolitan areas as they tend to have higher rates of electronic waste and have the most access to alternative transportation to avoid excessive carbon emission. This website can also be aimed towards those in more rural and indigenous areas that rely on the nature around them to survive.

? **Question #2:** Describe your proposed website in detail:

What is the purpose of your website? (*30+ words*)

The purpose of my website is to share news surrounding the environment and earth in a convenient way for users around the world to access. The website will provide headlines that will be critical news, articles that will be relevant to the environment, events that are related to significant changes in climate justice, and videos that will offer further elaboration and videos on climate justice. The ultimate goal is to have more people around the world take initiative on the issues surrounding climate justice.

Who is your intended user? (*30+ words*)

My intended users are people around the world who wish to learn more about how to protect our home, environmental activists who wish to learn or share news through posting publishings, and students who wish to gather information for their own work whether personal or academic.

How will your user interact with your website? (*30+ words*)

Users will be allowed to post their own articles, discuss topics in forums, interact with videos, and share news directly with a share method. Users will be able to interact with the website in a wikipedia style publishing method. Accounts will be mandatory to prevent spam and users will be able to recommend changes to other user's work.

Wireframe

❓ When creating your wireframe, ask yourself:
- What about your topic do you want shared on your website?
- How do you want your content and website structured?

❓ Copy/Paste a screenshot of your wireframe or a link to it below (if using a link, make sure it is publicly viewable).
